

## Annual Meeting

The three day technical meeting of AAPT is held annually in the spring and includes asphalt related technical sessions, symposia, and workshops.

Each technical session includes presentations by experts in the field followed by open discussions. These are developed by selecting the best of all submitted papers, which are published in the annual journal.

## Annual Journal

Since 1928, the AAPT has published an annual proceedings journal containing papers and reports presented at the Annual Meeting.

The Journals are unique in that they contain, in addition to formal presentations, the oral and written discussions of papers presented at the technical sessions and symposia.

## History

On January 17, 1924, a small group of engineers met in Chicago, Illinois, to establish an association for consideration of the technology of asphalt paving. Since then, the Association of Asphalt Paving Technologists (AAPT) has grown from its original 19 charter members to the present roster of over 650 members from every continent in the world.

*Leaders in asphalt paving  
technology for more than  
90 years...*

*...your source for professional  
development, best practices  
and the cutting-edge  
technology in the asphalt  
paving industry through an  
annual conference, journals,  
scholarships, workshops and  
networking.*

# AAPT Mission and Membership Benefits

## Mission

AAPT is the central point for communicating with your peers and staying up-to-date on the latest developments in the asphalt paving industry.

AAPT is dedicated to:

- ◆ Supporting and highlighting developments in paving technology
- ◆ Facilitating communication between production and construction professional, the raw material producers, and equipment manufacturers and suppliers
- ◆ Serving as the central point for exchange of paving technology innovations
- ◆ Conducting, encouraging and collating research in the paving industry
- ◆ Fostering leadership, communication and camaraderie among paving professionals

## Benefits

- ✓ Access to a wealth of knowledge, information, professionals and emerging technologies, including access to past journals and publications
- ✓ Be an integral part of a technical community representing all sectors of the industry including private industry representatives, agency and consulting professionals, and researchers
- ✓ Receive the AAPT journal of technical papers, discussion and conference proceedings, including timely information from recently held events
- ✓ Make connections with colleagues from across the globe during annual meetings
- ✓ Participate in lively debates on important technical issues related to paving
- ✓ Belong to an international group dedicated to improving asphalt pavements
- ✓ Be a member of an independent association without organizational biases; where policies are set individual members thru an elected Board rather than by companies or special interests

## Benefits (continued)

- ✓ Support the next generation of technologists through a long-standing student scholarship program

- ✓ Be part of a dynamic growing association that constantly improves to better serve its members and the asphalt community

If you share AAPT's dedication to the advancement of asphalt paving technology and have technical responsibilities requiring access to the latest industry research, please apply for membership today!

You may apply and pay the nominal annual membership fee online at:
